

## Flu and Pneumonia Vaccine Processing Information for Capital Health Plan Medicare Advantage Covered Persons

September 30, 2014

Dear Valued Provider,

Capital Health Plan's Customer Service Center has recently experienced an increased number of inquiries from Covered Persons indicating that Participating Pharmacies are advising that their Flu and Pneumonia Vaccines are not covered this year. Please ensure that claims are not billed incorrectly to their Medicare Part D Benefit. **Flu and Pneumonia Vaccines are covered and should be billed to the Capital Health Plan Part B plan.**

### **Action Required:**

- Make every reasonable effort to submit Flu and Pneumonia vaccines to the Part B benefit
- Claims submitted to Capital Health Plan's Medicare D program will reject with one of the following messages:
  - NCPDP Reject Code A6: "BILL BIN 610455 PCN **CHPPRTB**.  
NOT COVERED UNDER PART D BY LAW, PART B DRUG. PLAN EXCLUSION."
  - NCPDP Reject Code A6: "BILL BIN 610455 PCN **CHPPRTBG**.  
NOT COVERED UNDER PART D BY LAW, PART B DRUG. PLAN EXCLUSION."
- Resubmit the rejected claim to: **BIN** 610455
  - For **Advantage Plus and Preferred Advantage** use: **PCN** CHPPRTB
  - For **Retiree Advantage** use: **PCN** CHPPRTBG
- All claims must be submitted to Capital Health Plan with one of the BIN and PCN combinations above.

Please communicate this information to your pharmacies to prevent further disruption. Prime Therapeutics appreciates your support to ensure all claims for Capital Health Plan Medicare Advantage Covered Persons for Flu and Pneumonia are billed appropriately through Capital Health Plan's Medicare B benefit.

If you have any additional questions regarding claims processing, please contact Prime's Pharmacy Help Desk at 866.590.3010.

Thank you,
